Tuesday 15<sup>th</sup> December, 2020

Dear Parents,

## **Nuffield Early Language programme (NELI)**

As part of an initiative funded by the Department for Education in response to Covid-19, our school is delighted to be participating in a programme called Nuffield Early Language Intervention (NELI). The programme is designed for Reception children and involves providing targeted small group and one-to-one support for children who would benefit from additional support with their language and early literacy skills.

After Christmas, I will carry out a short, fun tablet-based assessment with all children to help give us some useful information about their language skills and understand who would benefit most from receiving early intervention support (NELI). We will carry out the same assessment again at the end of the school year to understand how the children's language skills have progressed. I will be required to upload this information onto the *Language Screen* website for assessment and research purposes. Please find further information about how the data is collected and used at: [www.languagescreen.com](http://www.languagescreen.com)

If you have any questions or queries regarding this, or would prefer us not to share your child's data in relation to the programme please do let me know.

Kind regards,

*Mrs Chichon*

Mrs Chichon  
Reception Class Teacher
